January 24 - 28, 2011 Zell am See, Salzburg, Austria

Dear Colleagues,

More than 170 highly satisfied participants from 21 countries in Zell am See 2010 are our motivation to invite you again to a week of stimulating presentations and professional workshops. Dental Implants have become a foremost technique in dentistry both for single tooth gaps, free-end situations and edentulous cases. Numerous innovations concerning materials, computer technology and strategies are responsible for a highly sophisticated treatment approach. With these developments also treatment costs have increased significantly. As clinicians we are often confronted with a situation where the best available therapy is not affordable by our patients.

We believe that it is very important to start with a proper diagnosis and judgement of specific situations such as: Which teeth can be saved? Are conventional Prosthetics a good treatment alternative? How do I solve the aesthetic problem? Do I need bone or soft tissue augmentation, or both? Are fixed or removable prosthetics the best individual solution?

The courses will focus on the necessary balance between the individual demands of our patients and realistic and predictable treatment options. Advantages, limitations and prognosis will be openly discussed.

The meeting will again bring together experts from different countries. We will present our clinical strategies and share and exchange our experience in clinical dentistry in a relaxed atmosphere. The beautiful Austrian ski resort Zell am See and the superb Porsche congress center will be again a perfect place to combine continuing education and a break from our daily clinical work-load. Come and Join!

Markus Hürzeler Martin Lorenzoni Christof Pertl Gernot Wimmer Otto Zuhr

January 24 - 28, 2011 Zell am See, Salzburg, Austria

Monday, January 24, 2011

Meet-the-Experts: 09:00 – 12:00

M.Lorenzoni, O. Zuhr, W. Wegscheider & W. Zechner

09:00 – 10:30 Round Table 1: Implant-Superstructures (e.g. screws vs. cementation; industry vs. hand made)

10:30 – 12:00 Round Table 2: Computer-navigated Implant Placement (clinical procedure & pitfalls)

Seminar: 16:00 – 19:00

Saving Teeth – options and limitations

Tuesday, January 25, 2011

Workshops: 09:00 – 12:00

Innovative Approaches in Plastic Periodontal Surgery – *O. Zuhr, G. Wimmer & C. Pertl*

hands-on-workshop on Connective Tissue Graft, Tunnelling Techniques and Free Mucosal Grafts

Seminar: 16:00 – 19:00

The Aesthetic Problem – Strategies and Prognosis

19:30 Dinner Party in Schloss Kammer - Maishofen

by kind invitation from

Wednesday, January 26, 2011

Workshops: 09:00 – 12:00

Advanced anterior implant surgery – *M. Hürzeler & M. Lorenzoni*

Hands-on-workshop on immediate anterior implant placement and hard & soft tissue augmentation

Competition: 14:00 – 17:00

Ski Championship – Giant Slalom on Schmittenhöhe

by kind invitation from

Thursday, January 27, 2011

Workshops: 09:00 – 12:00

Sinus floor elevation, *M. Hürzeler & C. Pertl*

Hands-on-workshop maxillary sinus floor elevation and complication management

Seminar: 16:00 – 19:00

Soft and Hard Tissue Augmentation – Our concepts & New Ideas

Friday, January 28, 2011

Meet-the-Experts: 09:00 – 12:00

M. Hürzeler, M. Lorenzoni, C. Pertl & O. Zuhr

09:00 – 10:30 Round Table 1: Socket Preservation (indications, techniques, results, immediate versus delayed)

10:30 – 12:00 Round Table 2: Soft Tissue augmentation (New materials, e.g. Mucograft & new techniques)

Seminar: 16:00 – 18:00

Fixed or Removable Restorations – Which, when and what?
